# 7 in 1 SOLAR RECHARGEABLE SPACE FLEET

Environmental. Educational. Enjoyable

Scientific & Fun

Build your own space fleet

Some solar powered toys, particularly those children can build themselves; provide an ideal mix of creative, active learning. The Solar Space Fleet allows children to snap together parts (no tools required) to create seven different working models, including a Space Station, Robot, Rover, Vehicle, Astronaut, Shuttle and Dog. Each complete mode is powered by a mini solar panel using sunlight, indoor halogen light, or micro rechargeable battery than literally brings the kits to life.
